Admission Information

Requirements and Conditions for Admission:

The application period for the Doctoral School of Informatics at Faculty of Informatics, Eötvös Loránd University (ELTE) April 1 - May 31, 2026.

Expected dates of the admission interviews: June 2026.

We look forward to receiving your applications!

The application deadline for the KDP remains unchanged.

For more information, please visit [National programmes](#)

In exceptional cases, students may apply for admission to the doctoral program while still enrolled in their master's studies. Eligibility for such early admission requires a placement at a Scientific Students' Association Conference (TDK) that qualifies for participation in the National Scientific Students' Conference (OTDK) and/or actual participation in the OTDK, as well as at least one peer-reviewed, accepted, or published scientific publication, which may be co-authored.

Applicants without an IT-related academic background may, if admitted, be required to complete supplementary courses to meet foundational requirements. An additional requirement is the

HU EN

Applicants eligible for state-funded doctoral studies include:

Hungarian citizens;

persons entitled to free movement and residence under a special law;

stateless individuals, refugees, beneficiaries of subsidiary protection, persons under temporary protection, admitted persons, immigrants, and those with permanent residency living in Hungary;

foreign nationals receiving the same assessment as Hungarian citizens under an international agreement;

citizens of countries whose nationals may attend higher education institutions in Hungary on a reciprocal basis;

individuals under the scope of the Act on Preferential Treatment, even if they are not Hungarian citizens or do not have the right to free movement and residence;

third-country nationals declaring themselves as of Hungarian nationality, as defined by the relevant Hungarian law;

third-country nationals holding an EU Blue Card.

Those in the above categories applying for a self-financed program are required to pay a tuition fee of HUF 1,000,000 per semester.

Applicants not belonging to any of the above categories may only study on a self-financed basis. The tuition fee for them is EUR 4,500 per semester.

Self-financed students may apply for partial or full exemption from tuition fees, depending on whether their research is conducted at the university or in an external institution. The financial backing for the research may be provided by the applicant's employer or the supervisor's institution. A written declaration must be attached by the applicant in such cases.

The detailed admission call is available during the admission period on the website: www.felvi.hu

HU EN

Copy of the English language certificate proving at least intermediate (B2) level complex (previously type C) state-accredited proficiency; if taken abroad, it must be recognized by the Hungarian Accreditation Centre for Language Examinations;

Curriculum Vitae (CV);

List of publications (if available);

Research proposal signed by the supervisor;

If the applicant does not apply for a scholarship, a written statement on the financial support for research costs must be attached, specifying whether the applicant or an external institution will cover the expenses;

A letter of acceptance from the host institution, if the research is to be conducted outside the university;

Proof of payment of the application fee.

Admission procedure fee: 150 EUR

The admission procedure fee must be paid through the E-Pay system.

E-Pay system: <https://epay.elte.hu/ext/index>

Faculty: Faculty of Informatics

Purpose of payment: application fee

Subcategory: PhD (foreign)

Admission interviews will be held in June 2026 for the autumn intake and the second week of January 2027 for the spring intake. The interviews are organized by the Doctoral School.

A minimum of three committee members will evaluate the applicants based on:

General professional intelligence;

Preparedness and competence in the chosen field of study (within the doctoral school's training

HU EN

Maximum score (100 points) is based on the following criteria, evaluated from submitted documents and the admission interview:

General professional intelligence: max 15 points;

Preparedness and competence in the chosen discipline: max 25 points;

Degree classification and academic performance: max 10 points

(Excellent diploma and academic results: 10 points; Good diploma/performance: 5 points);

Scientific student activities and other research contributions: max 15 points

(e.g., OTDK 1st/2nd/3rd place: 10/9/8 points; special award: 7 points; Faculty TDK 1st/2nd prize: 4/3 points;

scientific journal publication: 7–10 points; conference paper in proceedings: 6–9 points; book chapter with original findings: 6–9 points.

Only up to 15 points may be considered, even if total exceeds this);

Feasibility of the research plan: max 30 points;

English language proficiency – required minimum: B2-level complex certificate;

For advanced English language certificates, an additional 5 points may be awarded.
