Residence Permit for the Purpose of Job Seeking or Starting a Business

ELTE's Guide for Students

In case you wish to extend your stay in Hungary after your graduation to search for a job, you may wish to apply for a residence permit for the purpose of seeking a job or starting a business.

You can only apply for this permit in a specific set of circumstances:

- 1) you need to **submit the application** when your **residence permit is still valid**;
- 2) you **have to submit a copy of your diploma** (that you can only have after your graduation) as soon as possible, but within a couple of weeks after submitting the application at the latest.

It is possible that you will need to **submit the application without your diploma**. In this case, submit a **letter of explanation** in which you state that you are in the process of getting your diploma that you shall upload as soon as possible. It is beneficial to also upload a **letter from your faculty** that states what is the expected date of your graduation.

You will need to **visit the authorities** at Szegedi út 35-37 **within 15 days after the online submission**, and the personal visit needs to take place before the expiry of your residence permit card, otherwise your application will automatically be rejected. If you have an ongoing residence permit application, **you will be able to get a temporary residence certificate** from the authorities. You should ask for this during your personal visit.

After the submission, the authorities will send you an official notification, asking you to **supplement your application with** additional documents (mainly **your diploma**). They will give you a set amount of time. If you cannot get your diploma by then, you will need to ask in an official letter for an extension of the supplementary period, so that you can upload your diploma in time.
